

IS NEARING THE END.

Murderer Durant Will Shortly Know His Fate.

ONE MORE WITNESS TO TESTIFY.

The Attempt to Prove the Defendant's Innocence Fell Flat—Not a Fact Produced to Connect Rev. George Gibson With the Case in Any Manner—Miss Cunningham's Testimony.

SAN FRANCISCO, Oct. 24.—After a bitter legal struggle lasting three months, the testimony in the trial of Theodore Durant is all in and today the argument of the case began. When court adjourned yesterday afternoon District Attorney Barnes announced that he would not then formally close the case for the people, but would undoubtedly do so the first thing today. Mr. Barnes notified the attorneys for the defense that at most he would have but one more witness, whose examination would last but a few moments.

The case would have ended in a pyrotechnic display of sensation if the testimony that was introduced had not been printed so often before that it was familiar to everybody. Miss Carrie Cunningham, a newspaper reporter, who visited Durant at the prison frequently, testified that Durant told her he saw Elanah Lamont on the second floor of the belfry, where she was murdered. While engaged in fixing a sun burner, Miss Cunningham said, he told her he heard a suspicious noise in the belfry which attracted his attention. He crept along the ceiling of the church until he came to the belfry casing, where he looked through a crack and saw Miss Lamont.

Miss Cunningham's testimony was obtained only after a great number of objections made by the defense had been argued and ruled upon. An effort was also made to secure a statement from the witness in regard to an alleged confession made by Durant, but the court sustained an objection to the question. On one of Miss Cunningham's visits to the prisoner he is said to have shown her an envelope addressed to his attorneys, marked "To be opened if I am convicted and to be returned if I am acquitted."

The witness was subjected to a rigid cross-examination, in which an effort was made to show the means in which she had resorted to obtain interviews with Durant. She said at the suggestion of the newspaper by which she was employed she expressed the greatest friendship for the prisoner and frequently sent him papers, magazines and flowers. She denied that she ever took an oath and kissed the Bible after promising Durant not to publish anything he told her. She said she promised Durant she would not publish anything he told her, and kept her word.

Only two witnesses besides Miss Cunningham were examined yesterday. Both were physicians. Their testimony was important from the fact that it showed that Durant did not have the appearance of one who had been partly asphyxiated when he met Organist King in the church on the afternoon of April 3. King testified that Durant was pale and trembling when he saw him. When on the stand the prisoner corroborated King's testimony. Doctors May and Rosenstein, who were examined, testified that the first effect of gas was to flush the face and lips and inflame the eyes. Durant, according to his own statement, had not had the symptoms. Physicians also testified that a man who for five minutes has been subjected to fumes of escaping gas from 24 jets would be insensible.

The Evening Post, in commenting upon the close of the case, says:

Now that the evidence of the man charged with the Emanuel Church murders is all in, it is fair to compare what has been proved with the promises made in the opening statement to the jury when counsel for defense said he would prove beyond a doubt the innocence of the accused. With apparent sincerity he stated he would furnish an unassailable alibi which would be supported by the strongest kind of testimony. He further said he would impeach the chief witnesses for the prosecution, and even went so far as to claim that before the defense was all in, it would show that another man than Durant was the murderer. He pointed the finger of suspicion at Rev. John George Gibson, but did not go so far as to charge him with the strangling of Blanche Lamont and the murder and mutilation of Minnie Williams.

How the defense has failed is a matter of record. The promised alibi has not been established and the testimony of numerous witnesses called to sustain it in an indirect way impeaches the story told by the defendant on the stand. The page in the roll call kept by Dr. Cheney is all that stands between the prisoner and the scaffold. If there is one juror of the 12 who believes that correct the prisoner's life will be saved. The prosecution has shown, however, that it is a mere copy, and an erroneous one at that. It can easily be appreciated that the document carries very little weight, especially as it is impeached by the negative testimony of 74 students and Dr. Cheney, who have sworn that they have no recollection of Durant's attendance at the lecture on April 3.

The effort of the defense to impeach the testimony of the leading witness for the prosecution amounted to nothing. The attempt to prove Durant's innocence fell flat, as not a vestige of evidence that was presented points to such a conclusion. In fact the case of the prisoner was stronger at the close of the case for the people. So far as the Rev.

J. G. Gibson is concerned, not a fact has been produced to connect him with the case in any manner.

For Mutual Protection.

PEORIA, Ill., Oct. 24.—Forty coal operators of central Illinois met here and formed an association for mutual protection. They agreed to maintain a uniform scale of wages and selling prices. It was decided to advance prices of soft coal 25 cents a ton for November throughout the Peoria field.

TO JOIN THE ARMY.

Twelve Thousand Volunteers Leave Montevideo for Cuba.

WASHINGTON, Oct. 24.—A letter received at the navy department from the commander of the United States Steamship Yantic at Montevideo states that on Sept. 16, last, the Steamship San Francisco carried from that port over 1,200 Spaniards who had volunteered to join the Spanish army in Cuba. Eleven hundred of these were from Uruguay and the remaining were deserters from the Spanish army who had volunteered to return for service in Cuba.

A great proportion of the total number were mere boys. They were taken in charge on the San Francisco by a guard of Spanish soldiers and not allowed to leave. The ship bore no Spanish flag or insignia of nationality. No formal enlistments took place ashore, but each man on boarding the vessel presented a paper proffering his services to Spain.

NOVEL WEDDING.

Electricity Will Be Used to Join Two Loving Hearts.

OSHKOSH, Wis., Oct. 24.—On next Monday, unless present plans fail, a novel wedding will take place at the Northwestern depot in this city and at St. Cloud. The bride will be Miss Laddie Kluth of Oshkosh and the groom Duncan Edwards, agent of the road at St. Cloud. They will be made one while miles apart by telegraph.

The usual questions will be asked the gentleman over the wire and his answer, made before witnesses, will be returned. The bride will, of course, reply to the minister in person. She will then take a wedding tour to her husband's home by herself. The reason for such an unusual proceeding is owing to the fact that there is no Protestant minister at St. Cloud and the groom can not come to Oshkosh.

SECURED OPTIONS.

The Bethlehem Iron Company May Operate in the Queen's Dominion.

PORT ARTHUR, Ont., Oct. 24.—The Bethlehem (Pa.) Iron company has secured options on properties in the Mattawan iron range, situated west of this town. Immense bodies of hematite ore exist in this range and the company will send an exploring party in charge of an expert to report.

If satisfactory, the property will be purchased and works established thereon. Hitherto the company has imported hematite from Cuba, but owing to the present war has turned its attention to Canada.

CHAMPION CORBETT

Remanded Back to the Custody of the Sheriff of Garland County.

LITTLE ROCK, Oct. 24.—The supreme court has rendered its decision in the Corbett case. Judge Leatherman's decision was reversed and the prize fight law sustained. Corbett was remanded back to the sheriff of Garland county. Chief Justice Bunn, in delivering the opinion, severely criticised Chancellor Leatherman, saying he had no authority for his action in the habeas corpus case.

Hard on Smugglers.

WASHINGTON, Oct. 24.—To prevent smuggling is the ostensible reason assigned by the Nicaraguan government for the issue of a decree which bids fair to lead to complications in the future. It provides for the imposition of fines upon any person who boards a vessel at anchor in the harbors of the republic without a written permit from the port officer in each case and requires even those persons who have permits to submit themselves to search upon returning to the shore. Owners of small boats in the coasting trade are also required to pay licenses and give bond not to smuggle and are subject to disqualification if they violate the decree.

Missionary Society in Session.

ST. LOUIS, Oct. 24.—The 26th annual meeting of the Woman's Foreign Missionary society of the M. E. church convened at the Union Methodist church, and for the next two weeks daily sessions will be had. The meeting is national. This society is composed of 11 branches, the secretaries of which are now here assembled in executive session to receive the reports of the various departments, and to map out the plan of action for next year.

Purchased a Hotel.

MILWAUKEE, Oct. 24.—The Franciscan Sisters of St. Joseph's convent of this city have purchased a hotel at Erlenbad, a celebrated resort in Germany, and will use the hotel buildings and grounds for the mother house of the order, which is to be re-established in Europe. Considerable trouble was experienced by the sisters in securing the consent of the German government to the purchase.

Freight Trains Collide.

ST. LOUIS, Oct. 24.—Two freight trains on the Wabash railroad collided at Martinsburg, near Mexico, Mo., killing Dan Kehoe, pump foreman, and Edward Thompson of Tulip, Mo. The following passengers on the local freight were somewhat bruised: O. T. Harris, traveling salesman, Fulton, Mo.; C. P. Sturgeon and M. E. Vermillion of Middleton, Mo.

DESPERATE BATTLE.

One of the Fiercest Contests Yet in Cuba.

THE STRUGGLE FOR LIBERTY.

Insurgents Stood in Line and Made Targets For Spanish Bullets Prisoners Detached—Not Only That, but Helpless Hospital Patients Are Bayoneted to a Man. Filibusterers Captured.

NEW YORK, Oct. 24.—Reports of a desperate battle in the San Juan coffee-growing valley, between H. Iguin and Barajagua, were confirmed by dispatches received by the Cuban Junta.

The forces engaged were led by General Antouto Maceo, with 3,000 Cubans and General Echague, with 1,800 Spaniards. The greater portion of the Cubans were not actually engaged, according to the report, but continued the advance toward the west after a battle. Only 500 cavalry defended the rear of the Cuban army and kept the Spanish from advancing. The Spanish troops hesitated at critical times and did not fight with the valor which distinguished their ancestors. About 300 of the number were killed.

General Maceo's westward movement was for the purpose of securing the insurgent forces in Santa Clara province, as he received word that they were threatened by the columns of Spanish infantry. The letter was received from Acting Brigadier General Rego, who, at Manicaragua, is holding a position in the mountains, about midway between Cienfuegos and Trinidad. He has about 1,200 men, divided into seven companies of cavalry and 10 of infantry. He stated to General Maceo in his dispatch that the Spanish forces were massing at Cienfuegos, Trinidad and Villa Clara. There are three roads to Manicaragua from these three places. Spies reported to General Maceo that the enemy was preparing to make a concerted attack.

In Villa Clara there are over 1,800 Spaniards, in Cienfuegos about 2,000 and in Trinidad 1,500, making in all a formidable force to be repulsed by the Cubans. It is supposed that the hardest fighting will occur in the province of Santa Clara. As soon as the sugar-cane fields are relieved of the dampness from the recent heavy rains the insurgents will begin to burn them. Gomez has given orders to destroy everything.

From Havana comes word that it is the daily practice of the Spanish jailers to take several prisoners from the forts and prisons and shoot them. Each morning the prisoners are stood in line. Ten men are selected for death. Perhaps it is the first 10, perhaps the last 10 or the middle 10. The names of the condemned men are not ascertained. They are simply penned up and treated as animals.

In the province of Santa Clara General Laque is said to be rivaling the reputation of Garrido, "the butcher," in the eastern province, according to letters received from Sagua La Grande, on the north coast of Cuba. His force recently captured a mountain hospital, near Diego del Valle, after a fierce combat with 200 Cubans, who were guarding the sick and wounded. In the hospital were 31 insurgents, unable to participate in the engagement. The Spanish soldiers put every one of them to the bayonet. Not one was left alive.

HELD AS PRISONERS.

A British Man-of-War Captures Twenty-One Cuban Filibusterers.

PHILADELPHIA, Oct. 24.—The Cuban expeditions from this country have come to an end by the capture on Sunday, at the British island of Ignagua, of one of the most important which has gone from this country for some time.

Fifteen of the 21 men captured were acquitted at Wilmington, Del., about a month ago of filibustering. They sailed from New York on Oct. 5, on the steamer Delaware and landed at Ignagua, expecting to secure passage thence to Cuba. They remained several days without securing the desired transportation.

Cubans in New York becoming annoyed at the non-receipt of information to their landing in Cuba, sent to Nassau, New Providence, for information. When the nature of it was received, orders were given for their return to this country.

The men were waiting for a steamer, when a British man-of-war landed some marines and arrested them. They were taken to New Providence, where they are now held as prisoners.

IN HOT PURSUIT.

Mrs. John Hawkins of Niagara Falls Following a Wayward Husband.

CLEVELAND, Oct. 24.—Mrs. John Hawkins of Niagara Falls, who followed her husband and a variety actress to this city, has succeeded, by her hot pursuit, in breaking up the affair. Hawkins was deserted here by the actress, and the detectives have been given the intimation that the elopement was a scheme planned by the actress and her husband to bleed Hawkins, and that they succeeded in capturing all the money he had. Hawkins discovered that his wife was after him, and has fled to Buffalo, whither she has followed him.

BERLIN, Oct. 24.—The International association estimates the production of sugar for 1895-96 in Germany, Austria, France, Belgium, Holland and Russia at 3,680,033 tons, a falling off of \$54,000 tons from the total of the previous year.

WITHOUT ACCIDENT.

The New Battleship Texas Arrives Off Staten Island From Norfolk.

NEW YORK, Oct. 24.—The new United States battleship Texas arrived off Tomkinsville, Staten island, yesterday evening, and dropped anchor at 4:45. She came directly from Norfolk, where she was built in the navyyard. With the exception of the maneuvers she went through at the cape to adjust her compasses, she has had no work. Her initial trip was commenced Tuesday afternoon, when she left the capes and headed for Sandy Hook.

No attempt was made to speed her during the trip up the coast. Ten knots an hour was the maximum speed. The greater part of the trip was made at the fraction over nine knots. The officers report a pleasant trip without accident. They say the ship behaved well in the water and gave promise of being up to service requirements.

The Texas will lie off Tomkinsville until this afternoon, when she will run to the navyyard and put into the dry dock. There her bottom will be scraped and put into condition. When she leaves the dry dock she will proceed to Boston to await her trial trip over the government course.

The reason she came here to be dry docked, the officers said, was that the facilities at Brooklyn are better. The draws 25 feet of water. She carried a crew of 365 men, all told.

A FORTUNE AWAITING HIM.

Enoch Thompson of Minneapolis One of the Heirs to \$80,000,000.

MINNEAPOLIS, Oct. 24.—The recent death of the Duke of Antrim, the owner of a vast estate near Belfast, Ireland, brings to light a highly romantic condition of affairs, involving the appearance of a long lost heir to an old Irish family fortune of \$80,000,000, and the important claim of a host of alleged illegal heirs.

A very important party to the story is a resident of this city, Enoch A. Thompson of 408 Nicollet avenue. The story, in brief, is this:

Enoch Thompson's grandfather, Joseph Thompson, was the owner of the estate of Antrim, North Ireland. Just after the Orangemen's rebellion he was forced to fly for his life at a few hours' notice, leaving all his property uncared for.

Lately Enoch Thompson of Minneapolis received a letter from his family, the only living heirs of Joseph Thompson, stating that the attorney for the Antrim estate had sought him out at Dayton, O., and the letter contained an earnest request for Enoch to come to Dayton and make himself acquainted with the situation.

WILL RESIST HEROICALLY.

Venezuela Will Not Submit to Unjust Aggression From England.

NEW YORK, Oct. 24.—A special from Caracas says: President Crespo was asked to outline the position of Venezuela in regard to the demand of Great Britain that reparation be made for the arrest of British subjects and that a settlement of the boundary between the countries be arranged.

While the president of the republic maintained a certain degree of diplomatic reserve, it is said on the highest authority that the government, as well as public opinion, does not expect any attempt at unjust aggression on the part of England, and confides in the Monroe doctrine.

Should, however, such aggression occur, Venezuela will resist heroically. The Venezuelan government is still officially uninformed in relation to England's ultimatum.

TO THE WATER'S EDGE.

Steamer City of St. Augustine Goes Up in Flames.

NEW YORK, Oct. 24.—The Ward line steamer Orizaba, has reached port from Havana and reports having passed the steamer City of St. Augustine all in flames and burned to the water's edge at 2 o'clock Tuesday morning, 18 miles southeast by south, half east from Hatteras.

The Orizaba steamed about some time, but found no trace of the crew of the burning steamer. As the night was clear and the sea calm it is thought the crew were picked up by some passing craft.

The City of St. Augustine was bound from this port for Jacksonville. She was built for the lumber trade at Wilmington, Del., five years ago and registered 391 tons.

OF UNSOUND MIND.

Bessie Fairbanks Discharged From Custody By a New York Judge.

NEW YORK, Oct. 24.—Bessie Fairbanks, the young woman who shot and blinded Isaac Cochrane in March last, was discharged from custody by Judge Allison, in Part I, general sessions. The shooting was due, so the girl at the time asserted, because Cochrane, whose father is a wealthy resident of Newburgh, N. Y., had deserted her.

The action of the court was based upon representations by the district attorney that Miss Fairbanks had been subject to epileptic fits; that her father had died of a nervous disorder, and that the defendant had been found of unsound mind by a jury which examined her as to her mental condition in June last.

Shipwrecked Sailors Landed.

NEW YORK, Oct. 24.—Eight distressed seamen belonging to the Norwegian bark Staatsminister Stang arrived here yesterday per Ward line Steamer Orizaba from Progresso, Mexico. The Staatsminister Stang was bound from Paramaribo for Progresso in ballast and went ashore Sept. 27 on the Mexican coast, south of Progresso.

HE MAY BE LYNCHED.

An Ohio Farmer Attempts to 'Strangle a Boy.

SCREAMS BROUGHT ASSISTANCE.

Officer Sweeney Killed and Marshal Shultz Wounded, Near Watson, O., in a Struggle With Lee Martin. William Wright Blinds His Brother With a Chair—Stock Roasted at Kenton.

TIFFIN, O., Oct. 24.—Lee Martin, a farmer near Watson, tried to strangle a small boy to death. His screams brought the assistance of Frank Burkhardt, who was hunting in the woods close by. Burkhardt swore out a warrant for Martin's arrest, and Officer Sweeney and Martin Shultz started for the scene.

When they reached the home of Martin a terrible struggle occurred, in which Marshal Shultz was shot and died within a few minutes. Officer Sweeney was also shot, but not fatally.

Martin was lodged in jail in this city and it is feared he will be lynched.

COMMITTED MAYHEM.

William Wright Blinds His Brother With a Chair.

GREENVILLE, O., Oct. 23.—Henry and William Wright, brothers, had a quarrel at William's residence in Twin township, which grew out of the famous trial of Antonidas and Fulkert, who shot Mrs. Henry Wright in June, 1894, which resulted in William striking Henry with a chair, cutting one eye horribly and knocking the other clear out. Henry will never be able to see again. Heretofore the brothers have been on the best of terms.

ROASTED TO DEATH.

Baro, Horses and Hogs Burned While Kentonians Slumbered.

KENTON, O., Oct. 24.—A fire occurred here which is truly remarkable for one thing—not a soul in the city knew anything about it till the next morning, when the owner of the property destroyed awoke to find his large barn burned and two horses and three hogs roasted to ashes. Loss, \$1,600. No insurance.

This is the first instance in the history of Kenton in which the fire department was not called upon to extinguish a disastrous fire.

EXPECTS LITTLE TROUBLE.

General Wheaton's Opinion on the Northern Utes' Removal.

DENVER, Oct. 24.—General Wheaton, commanding the department of Colorado, United States army, to whom Governor McIntyre has appealed to remove the Northern Utes of Utah from Colorado, said that he did not think any serious trouble would arise, but he was having a careful investigation made which would be completed in a day or so. He said that the Indian agent, Major Randlett, was also commander of the post of that locality and he would in all probability call the Indians back to the reservation. It is not known exactly how many Utes are in Colorado, but they are estimated at 500 men, with half as many women.

LUMBER SEIZED.

Heard Depredations Committed by Timber Thieves.

FRESNO, Cal., Oct. 24.—Special Agent Brockenbore of the United States land office has been investigating the alleged depredations of the timber thieves in the Sierras during the past three weeks. He has seized over 1,000,000 feet of lumber cut from government timber. He states that vast number of depredations have been made on government lands.

The saw mills at Pine Ridge have been making large inroads on Uncle Sam's timber.

ILLICIT STILL.

Causes the Murder of Peter and Harry Gubbard in Jackson County, Ky.

LOUISVILLE, Oct. 24.—A double murder is reported from Jackson county, near the Mason county line. Peter and Henry Gubbard were shot and killed by Sanford Lakes, and the latter is now at large. The cause of the killing appears to be that about two years ago the Gubbard boys were instrumental in the discovery and destruction by revenue officials of an illicit still, operated by Lakes.

LOSS TO OIL MEN.

An Ohio Town in Flames—Wires Down and No Particulars Obtainable.

TOLEDO, Oct. 24.—Reports from Gibsonburg, O., an oil town 20 miles south of here say that the entire town is in flames, and engines from this city have gone to their assistance. It is impossible to procure particulars, as all the wires are down. The reports, however, state that the loss will be enormous to the oil men.

Toledo Strike Settled.

TOLEDO, Oct. 24.—Yesterday morning all the men went back to work in all the shops at the advance offered yesterday except the striking toolmakers. The Gendron company withdrew from the Manufacturers' association, granted the advance and their toolmakers are at work. It is believed the others will follow.

Stabbing Affray in a Saloon.

LATAVIA, O., Oct. 24.—During a fight in the saloon of Mike Brandt, Frank Davis stabbed Thomas Perkins, colored, and later hit him with a hatchet.

CLAY, THE DISGRUNTLED.

The Paris Kentuckian severely criticised Colonel Clay for declining to support General Hardin. It says Hardin defeated Clay fairly and honorably for the nomination, quotes Mr. Clay's speech at the convention calling upon all Democrats to vote for Hardin and pledging his support to the ticket, and then says: The grounds so clearly stated by Mr. Clay, upon which he urged every Democrat to save the State from Republican domination, are as strong and unanswerable to-day as they were on the day they were uttered. Mr. Hardin's views on the currency question were known at the time he was nominated, and yet the party, by a decided majority, declared that he was its choice, and worthy to be its leader in the great struggle for political supremacy in Kentucky.

Every man who knows Gen. Hardin—however much they may differ with him on questions of policy—knows that if he had gone down in defeat, and Mr. Clay had been nominated, that his voice would have been heard throughout the whole State in advocacy of Mr. Clay's election. In all the political history of Kentucky, we cannot recall a single instance in which a candidate for the nomination for Governor of the State, after being fairly defeated, failed to support the nominee of the party.

We hold that when a man submits his claims to the decision of a party convention that if he is fairly and honorably defeated he owes it to his party and himself to support the nominee of the party.

The Democracy of Bourbon County have highly honored Mr. Clay in the past.

"We that loved him so, follow'd him, honor'd him,
Lived in his mild and magnificent eye,
Learn'd his great language, caught his clear accents,
Made him our pattern to live and to die.
He alone breaks from the van."

The parting of the ways has come. We cannot longer follow his leadership. But, with firm and steady tread the Democracy of Bourbon County will keep step with their brother Democrats, and win such a victory in November as will send a thrill of joy to every Democrat in this grand old Commonwealth.

Bourbon County will be true to the whole Democratic ticket from top to bottom.

VOTERS who were sick and unable to register October 1st, and all who were necessarily absent from the city that day, can yet register by going before the County Clerk and certifying to either fact. Remember, however, that you can go before the Clerk and register as above only on one of these three days—Monday, October 28; Tuesday, October 29th; Wednesday, October 30th.

THE CRAFTY BRADLEY.

Trying to Hoodwink Democrats in to Supporting Him for Governor.

Hon. John D. White, Ex-Congressman and a prominent Republican in a recent interview characterized W. O. Bradley, Republican nominee for Governor, as a rank hypocrite. And the Hon. John D. is about right.

Speaking of Mr. Bradley's speech at that place the Paris Kentuckian says: "Mr. Bradley's manner and bearing impressed all with his utter lack of sincerity. With his head somewhat 'ducked' and inclined slightly to the left; eyes not more than half open, but with a crafty, side-wise glance; lips that revealed a mirthful, rather twitching playfulness about the corners, he seemed in constant communication with his Republican brethren—silently inviting them to observe how dexterously he could hoodwink the Democrats.

One of Mr. Bradley's tricks was not new to a Paris audience. It had been previously exhibited by Mr. Denny (whose name now, by the way, is Dennis). The trick consisted in sounding the longest and loudest upon the subject he thought dearest to the hearts of Bourbon Democrats. This time it was gold. Sherman Stivers, or J. W. Wilcox, or Roger O'Connor, or some other of the best of the boys, told him the Democrats hereabouts all wanted gold. Consequently Mr. Bradley bowed, scraped and smiled for one hour about gold. As he stepped first this way and then that; moved backward and peered down as if endeavoring to eye where he had scratched; then rushed forward with a slight rustle of vexatious disappointment brought on by a failure to find the bug he sought with fond expectancy, his resemblance to a cock robin was so striking, 'tis impossible to refrain from speaking of it, and no apology is necessary for doing so."

When Bradley got up in the mountains, he tried to make the people believe the Democratic administration of Kentucky ought to have built a railroad to every county seat in that section years ago, and opened up all the coal mines. Billie O. B. really seems to imagine the people are all fools.

When Baby was sick, we gave her Castoria.

THE County of Kenton has 13,234 legal voters, 5 idiots and is Democratic. Knox County has 2,689 legal voters, 24 idiots and is Republican, says the Covington Commonwealth.

Convicts in the Michigan State prison are allowed to keep birds, and as a result of this there are 600 feathered songsters in the prison, all owned and cared for by the prisoners. Their carolings in the morning are one of the brightest features of life at this institution.

THE CAMPAIGN.

A Crowd of 15,000 Turned Out to Hear Hardin, Blackburn and Lindsay.

A big Democratic barbecue was held at Springfield, Washington County, Tuesday. General Hardin, Senator Lindsay and Senator Blackburn were the speakers, and a crowd estimated at 15,000 turned out to hear them.

Covington Bell: "Bradley has come and gone, and if he has made a single Democratic convert, or even smoothed the ruffled plumage of the angry factions in his own party, we have not heard of it. Of course the reporters for Republican papers find a great deal of enthusiasm in their minds, but there is little or no evidence of it outside of their remarkable inventive faculties."

Hon. John S. Rhea spoke at Glasgow on the 21st. Much of his speech was devoted to a discussion of State affairs and a comparison of Democratic and Republican governments. He referred to the Dick Tate defalcation, and as an offset to this one act of Democratic dishonesty he charged that three of the leading Republican officials in this State holding offices under the Federal Government had all been defaulters. He made a strong and eloquent appeal to all Democrats to stand by Hardin and the ticket and declared that as rank a free-silver man as he was, he would vote for a twenty-two carat "gold bug" before he would for any Republican who ever lived.

One of the largest political meetings held in Anderson County for a long time was addressed Monday by Congressman Al. Berry.

Frankfort Capital: "A special train, with Col. Bradley on the tail end, is going to start through Central Kentucky next Thursday. Put Gen. Hardin on a train behind him, and Bradley will beat his own train to its destination."

BROWNSVILLE, Ky., Oct. 21.—The Rev. P. Rountree, Moderator of the Green River Association of United Baptists, who has been a lifelong Republican, has now taken the stump, and is doing valiant service in the interest of true Democracy. The Rev. Mr. Rountree is a forcible speaker, and wields a large influence in Edmonson County, which, beyond a doubt, will roll up a handsome majority for the whole Democratic ticket in November.

SOMERSET, Ky., Oct. 22.—Republicans are hot here over the coming of Main's circus on election day. This district, the Eleventh Congressional, is Republican, and they claim that Hardin's forces sent the circus here to turn the district over to Democrats, as the country voters, who are largely Republican, would miss voting to come to town to see the circus.

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

The claim is made that the vote for School Trustees must be viva voce. At Frankfort the County Clerk has decided not to place the names of the candidates for School Board on the official ballot.

RAILROAD TALK.

Negotiations Pending For Opening Up Fine Timber and Coal Country.

[Flemingsburg Gazette.]

The new railroad project which we mentioned last week has created some little interest with our citizens, and everybody we have heard express themselves seems to hope well for it. The Hixon-Rodburn Lumber Co., of New York, extensive owners of timber land, are the promoters of the movement, and Captain W. G. Dearing, of this city, has been employed by them to manage their affairs here and assist in making arrangements for the road. The proposition which the company makes, as we understand it, is about this. They agree that if the C. F. and A. owners will widen their road and meet them on the line between Fleming and Rowan, they will join them there and complete the road on back into the timber and coal regions of Morgan County. This region not only abounds with the finest timber and coal, but also contains great quantities of fire clay. Such a road would furnish an opportunity for the development of vast timber and mineral resources, and much land which has never been cultivated would be utilized. Flemingsburg being the largest place on the road this side of the mountains, would no doubt be greatly benefited by it.

Negotiations are being made between the promoters of the road and the owners of the C. F. & A., and just what conclusion they will reach can not be told. One thing is evident, however, and that is that there is a possibility of Flemingsburg having a through broad gauge railroad. The Hixon-Rodburn Company say that they mean business, and even if they can not secure the co-operation of the other railroad, they will build the road anyhow, provided our citizens give them sufficient encouragement. Six miles of the road have been built already, and extends from Rodburn, Rowan County, toward this county.

"Sowing the Wind."

"Sowing the Wind," is truly a fascinating play, conceived by the illustrious playwright Sydney Grundy who handles a delicate problem in an exceedingly clever manner. This play produces a great effect; the auditors laugh when the dramatist desires to awaken laughter, weeps when he wishes them to weep, sorrows with the unfortunate personages he has created for sorrow, exults over the defeat of those he lashes, and rejoices in the joy of those he caresses. "Sowing the Wind," will be the attraction at the opera house on October 30th.

IN ordering the Mercer County Clerk to place the name of W. E. Some of the Republicans tried to keep Gill's name off the ticket.

AT Cincinnati Judge Sage knocked out the \$10,000 damage suit of Kate Brennan, administratrix for Joseph Thomas, against the C. and O. Railroad, and at the same time established an important precedent. The testimony was that the boy boarded a train in the railroad yards, but had been accidentally killed. The Court held that the boy was old enough to know that he had no right to board the train, and that the accident was not due to any negligence of the company.

SUFFERING FOR WATER.

The Present Drouth Unprecedented. The Country Over Needs Rain

Reports received at the Weather Bureau indicate that the present drouth is one of the severest, most prolonged and general known in the United States since the bureau's organization.

There are a few places which show an exception to the general condition, but in no large section of the country, unless perhaps in the Northwest and far West, does there appear to have been a soaking rain for the past two months are more. Where there has been exceptional precipitation it has been confined to small areas. In some parts of the country the drought began in the latter part of July, but in most of the sections it did not become markedly pronounced until in August.

The entire Atlantic Coast, with a few exceptions, such as Charleston, S. C., and Augusta, Ga., shows a deficiency below the normal rain-fall since the first of August, amounting in some instances to almost half of the average precipitation. The Ohio and Mississippi valleys report similar conditions, as does a part of the Pacific Coast.

The greatest complaints come from West Virginia, Kentucky and Western Pennsylvania. Fortunately in most parts of the country the drouth did not set in until after the principal crops were matured, consequently the effect has not been so disastrous as it would have been if it had begun earlier. In some places it has had a slight effect on the planting of winter wheat, and complaints come from many quarters of the inconveniences of securing water for domestic and stock purposes, many small streams, stock ponds, springs and wells having become dry. Pastures have been injured in many States. It is also noticeable that there has been an increase of typhoid fever over the normal in many of the sections where the drouth is severe.

Our town was nearly depopulated last Saturday on account of the excursion of Prof. Turnipseed's school to Glen and Escalapa springs. The trip was a very enjoyable one, participated in by sixty-eight of the scholars, and enough of the young folks and more mature residents to bring the entire number up to 100. A picnic dinner was very much enjoyed and the entire party arrived safely at home late in the evening, well pleased with their day's outing. Many thanks are due Prof. Turnipseed for originating and carrying to a successful issue such a pleasant trip, also to Mr. Ambrose Dixon for favors rendered. One of the sensational events of the day was the loss of Professor Turnipseed's pocket-book, containing \$10, which was found by a prominent young lady in her dining basket on her return home, and immediately returned to the owner by her father. And now the boys are poking the Professor, saying it was a deep laid scheme of his for an excuse to call on the young lady, which was promptly nipped in the bud by the watchful old gentleman.

BISHOP DUDLEY AND WASHINGTON.

Eldon Bulletin: Apropos of the item in your paper yesterday from the Covington Daily Bell under the heading "Bishop Dudley" and the "rumor" that he may remove to Washington, &c., permit me to say that such a "translation," under our present canon-law is not practicable. The resignation of a Bishop from his jurisdiction is hedged about with many difficulties to begin with, and then the Canon (Canon xix, Title I, Section xv) expressly says: "No Diocesan or Assistant Bishop, whose resignation has been consummated pursuant to this section, shall, under any circumstances, be eligible to any Diocese now in union, or which may be hereafter admitted into union, with this church," &c. This clearly settles the matter.

The "proposed canons" before the late convention allowed "translation" from one diocese to another, but for this, and other reasons, they failed to carry. D. D. CHAPIN.

THE Episcopal Church now has seventy-five bishops, 4,544 clergymen, 567 candidates for lay orders, 190,820 baptisms in the past year and 131,473 confirmations. There are now 618,500 communicants, 5,117 church edifices and nearly 500 institutions of a benevolent or educational character. Contributions from all sources were \$38,000,000 last year.

An exchange says that a terrible punishment has overtaken a couple who eloped, which should be a warning to all who resort to that method to thwart the will of dissenting parents. Mrs. Amanda Webster, of Indiana, who last year ran off and married, has just paralyzed her husband by giving birth to three girls and a boy, all of whom are alive and kicking. After recovering from the shock, the good man is trying to make the best of what he can not help, and, being an ardent admirer of President Cleveland, says the girls would be named Ruth, Esther and Marion, and the boy Grover, and that he would ask the President to act as godfather.

"GRASSLAND" FARM

Near Lexington, Ky.,

to Be Sold.

I offer at private sale for a short time this magnificent farm, the homestead of the late Maj. Thos. H. Shelby, father of the undersigned, located nine miles from Lexington, near the Richmond turnpike and bounded by the Walnut Hill pike and the Jack's Creek pike, and containing about

723 ACRES of unsurpassed Land, of which about 460 acres in virgin Blue Grass, mainly covered with fine and valuable timber.

Abundant and never failing supply of water from natural sources, well distributed, and rendering this the best watered farm in Kentucky. Excellently fenced and subdivided. Handsomely and substantially improved with

A Commodious Two and a Half Story Brick Metal Roof Mansion,

and suitable barns, outbuildings, etc., etc. Fine orchards and gardens. Soil strong, rich, well cared for, produces 1,500 to 2,000 pounds of tobacco per acre and other crops in proportion. Will sell as a whole or divided,

373 Acres with the improvements, remainder in one or two tracts.

No such farm in extent and superior quality for sale. It is a portion of the noted 4,000-acre purchase made by Gov. Shelby in the early history of the State; has been in the Shelby family ever since. It is in the very center of the famed Bluegrass section of the State.

Send to the undersigned, or Col. J. E. Delph & Son, Lexington, Ky., Managers of The Kentucky Blue Grass Land agency, for circular giving price, terms and all necessary particulars.

ISAAC P. SHELBY.

Coming, November 11th.

Fannie Bloomfield Zeisler, the greatest woman pianist in America, will be here on above date, if 100 subscribers at 75 cents each, including reserved seat, can be secured. The Tageblatt (Wien) says:

Mrs. Zeisler, at her debut, created a furore, the same as she did at Berlin and as she is sure to do everywhere. She is a mighty virtuoso, a magnificent amazon of the keyboard, who will always excite admiration and astonishment. Her playing possesses all the qualities to dazzle, excite and fascinate. She is one of the most interesting personalities among the virtuosos of our time.
